

VISION

Smart Mixed-Signal Connectivity™

MISSION

Our mission is to design market-differentiating mixed-signal connectivity solutions that enable our customers to be successful while generating attractive returns for our shareholders and employees.

VALUES

We strive to understand the needs of our customers, delivering Success by Design through our feature-rich solutions and application specific design support. Our customers and suppliers know us as a responsive and proven partner. We operate globally as a team with the highest ethical standards and hold ourselves accountable for our future, our success and the success of our customers.
